## EXPERIENCE

### Full Stack Development Intern

Esprit IT Management Dep

Feb 2023 - May 2023

I worked on designing and developing a Customer Relationship Management System for Esprit, a private IT School in Tunisia, using SpringBoot, Spring Gateway, Spring Security, RabbitMQ, OracleDB and ReactJS. I helped design the microservice architecture to maximize integrability and compatibility with Esprit's existing systems.

### Full Stack Development Intern

Sonede Tunisie

Aug 2022 - Sep 2022

I designed and developed a complaint management system for Sonede using NextJS and MongoDB.

### Assistant Technical Manager

Orenda Junior Entreprise

Dec 2020 - Present

Orenda JE is a Junior enterprise managed by students that specializes in web development, Video Editing and Graphic Design, based in ISAMM. I have been part of Orenda Since 2020 as a writer and video content director. In September 2022 I joined the Web Development team as a full stack JS developer for a few months during which I helped develop QA unit and E2E tests for 2 projects using JEST and Cypress, Designed and helped develop HR and Project Management Systems. In December 2022 I became the assistant technical manager and started overseeing the JS and Wordpress development Teams.

## EDUCATION

### Higher Institute of Arts and Multimedia, Manouba. ISAMM

Bachelor's in Computer Science

Sep 2020 - Jun 2023

### Lycée 9 avrile, Boumhel

Baccalaureate

Sep 2016 - Jun 2020

## EXTRACURRICULAR ACTIVITIES

### Writer

Japanese Events in Tunisia

Dec 2019 - Jun 2020

JET is the organizer of the most popular pop and japanese culture events in Tunisia, Banzai. I joined JET in 2019 as a writer and member of the press team where i mainly covered cultural and artistic topics. I wrote reviews and pieces on the effects of Japanese culture on western music, but i also covered events and pop-culture news as well. Some of my articles broke JET's engagement records on social media.
